DONATIONS

Date Approved: 09/11/2018

Previous Policy Dated: 9/8/2015

Review Date: 9/2021

Donations of Money:

The Carver County Library Board encourages donations of money to the Library Foundation of Carver County or to Friends of the Library groups in each branch. These gifts enhance the Library system's services and programs.

Monetary donations may be unrestricted or designated to a particular program or service. The Library Foundation of Carver County will receive and acknowledge memorials and tribute gifts for system-wide programs, services, and gifts to individual libraries if requested. Monetary gifts to individual libraries through Friends of the Library groups may be managed and acknowledged by Friends of the Library groups.

The Library Foundation of Carver County handles all planned gifts and bequests for Carver County Library. The Foundation will work closely with both the donor and appropriate library staff to steward these important 'future' gifts.

Donations of Books and Other Materials:

Donations of books and other materials may be made directly to Carver County Library. The Library accepts these gifts with the understanding that selection guidelines are applied to gifts in accordance with the criteria applied to purchased materials. Gifts become the property of the Carver County Library.

The donor will be given a letter explaining the gift policy for tax purposes, if requested. The Library does not provide appraisals of gifts or potential gifts.

Donations of Public Art:

Proposals to commission art for display at a library are subject to the Library Director's recommendation to the Library Board prior to commissioning. The final decision to accept and utilize donated art in libraries is determined by the Library Board subscribing to Carver County Art policy standards.

The Director may organize an Art Selection Panel which will include members from the Library Board, Library Foundation, Friends of the Library, and/or community members at large if warranted.
